Our Early Help Offer

Early Help is a pathway to supporting you and your child as they grow up when you or they may need further support or guidance.

Providing early help to our pupils and families at Fairfield First School means we can improve outcomes for children, families, and communities, providing support as soon as a problem emerges, at any point in a child's life, from the early years through to teenage years.

Early Help can support children and their families who may be struggling with:

- Routines and family rules
- Families who may be not be eating healthy food
- Keeping to a healthy lifestyle
- Children who are caring for a family member
- Children who may not want to go to school for different reasons
- Disability within the family including children being a young carer
- Children in the family have special educational needs (SEND)
- Children who may becoming involved in anti-social or criminal behaviour
- Children who go missing from home
- Children or parents / carers misusing drugs or alcohol
- Children at risk of being tricked, forced, or made to work in the criminal world
- Children who may need support because they may live in a home and see drug or alcohol abuse or adult mental health problems.
- Children who have parents who argue a lot (and sometimes might hurt each other) whether the parents live together or apart.
- Children at risk of being groomed to join groups which support illegal views
- A privately fostered child (a child from another family living within your family home)

Early help relies upon local groups and people in the community, sometimes we work together to help children, young people, and their families.

Everyone needs help at some time in their lives and therefore an ethos of early help is important for any school.

Fairfield First School Safeguarding Statement

At Fairfield First School, we recognise our moral and statutory responsibility to safeguard and promote the welfare of all pupils. We endeavour to provide a safe and welcoming environment where children are respected and valued. We are alert to the signs of abuse and neglect and follow our procedures to ensure that children receive effective support, protection and justice. Child protection forms part of the school's safeguarding responsibilities.

We also recognise that many pupils who attend our School come from families who look after their children very carefully, do a great deal for them and can sometimes be over-protective, leading to the children having quite sheltered upbringings. As a result, we feel we do need to educate the children about how to keep themselves safe from a variety of risks and, as a result, this is built into the curriculum and features heavily in Whole School Assemblies.

This Early Help Offer and our Safeguarding Policy supports our Vision Statement, "Aim High, Work Hard, Have Fun and Care for Others" as we aim:

- To provide a positive, safe and happy learning environment in which everyone is inspired and empowered to achieve the highest standard of which they are capable in all aspects of their life.
- To recognise, accommodate and support the needs of all individuals.
- To help everyone to make appropriate choices through praise, encouragement and by leading through example.
- To treat everyone with respect, encourage self-respect, listen to and value everybody's opinions, contributions and ideas.
- To provide a broad, balanced, stimulating curriculum in which all progress is recognised, developed and celebrated.
- To provide an open school that promotes health and well-being and continually develops effective partnerships with parents and the wider community.
- To ensure that effective leadership and management enables us to continually improve all aspects of our school through systematic, rigorous self-evaluation.
- To make school fun for everybody.

At Fairfield First School we meet the needs of our children through a variety of ways. We systematically monitor the children's attendance. We apply our School's Safeguarding policy to ensure that we keep our children safe from a variety of risks. We systematically monitor behaviour incidents to identify patterns so that incidents of poor behaviour can be addressed and children can be provided with appropriate support. In addition, children with special educational needs or disabilities are supported and monitored closely through our SEND Policy.

The coordinated Fairfield First School Early Help Offer is outlined in the table below. We believe that early interventions for children or families, in many cases, will prevent needs from escalating into statutory services. In the table below are some National and Local Organisations that can support children, young people and their families.

Early Help have also developed a “Virtual Family Hub,” a webpage to give families information about the range of different types of Early Help available. This can be accessed using the link below:

<p>E-safety (Online Safety)</p>	<p>Online Activity (phones, computers) can be a serious risk to children: The use of technology has become a significant component of many safeguarding issues. Child sexual exploitation; radicalisation; sexual predation – technology often provides the platform that facilitates harm. With the right support, education and safety measures in place the internet and new technologies can also bring great benefits but we must all be vigilant. 	<p>Cyberbullying is using the internet, email, online games or any digital technology to threaten, tease, upset or humiliate someone else.</p> <p>If the police consider a message or post to be potentially criminal, they will take appropriate action. This could involve arresting the person responsible or interviewing them under caution. Cases involving sustained abuse or where someone's life is threatened will be treated seriously. The police will consider all of the circumstances when considering the best response to a report of cyber bullying. They will assess how vulnerable the victim is and what resources are required to trace the offender via social networking sites that often operate abroad and to different legislation. In certain cases it may be difficult to take action if the offender isn't in the UK. They will work with the victim to bring about the most suitable and proportionate conclusion, this will include alternative options that include the officer in the case using their discretion and working with the offender to record an apology to the victim.</p> <p>Useful links</p> <p>https://www.nationalbullyinghelpline.co.uk/kids.html</p> <p>Childline</p> <p>KidScape: Our resources provide information on issues surrounding bullying, online and personal safety. There is a very strong link between ‘honour’ based violence, forced marriage and domestic abuse. The term ‘Honour Based</p>

<p>Children Missing in Education (CME)</p>	<p>Children Missing Education (CME) refers to 'any child of compulsory school age who is not registered at any formally approved education activity e.g. school, alternative provision, elective home education, and has been out of education provision for at least 4 weeks'. CME also includes those children who are missing (family whereabouts unknown), and are usually children who are registered on a school roll / alternative provision. This might be a child who is not at their last known address and either has not taken up an allocated school place as expected, or has 10 or more days of continuous absence from school without explanation, or left school suddenly and the destination is unknown. https://www.worcestershire.gov.uk/worcestershire-children-first-education-services/support-services/inclusion-educational-settings/attendance-and-cme</p>
<p>Missing Children and Adults Strategy (vulnerable children and adults)</p>	<p>Every year an estimated 200,000 people go missing in the UK. In some cases, missing adults may have made a choice to leave and 'start their</p>

<p>who go missing)</p>	<p>lives over again’, but the vast majority of missing people, children and adults, are vulnerable and need protection and support. The strategy has three key objectives which provide the right foundations for any effective local strategy to tackle this issue: Prevention - reducing the number of people who go missing, including through prevention strategies, education work and early intervention in cases where children and adults repeatedly go missing Protection - reducing the harm to those who go missing, including through a tailored, risk-based response and ensuring agencies work together to find and close cases as quickly as possible at a local and national level Provision - providing support and advice to missing persons and families by referring them to agencies promptly and ensuring they understand how and where to access help. The police should be informed if any child or adult goes missing. The Missing Children and Adults strategy can then be referred to for further information and help. It is a home office publication (2011).</p> <p>https://www.gov.uk/government/publications/missing-children-and-adults-strategy</p> <p>https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/117793/missing-persons-strategy.pdf</p>
